

# Ashford Little Bob Doubles

## Purpose

Ashford is a simple doubles method, where the treble plain hunts to third place. The working bells ring a pattern of work with clear treble signposts.

## Ringing Ashford Little Bob Doubles

The treble plain hunts to third place.

Bells 2, 3, 4 and 5 ring a cycle of work:

- If the treble takes your bell off lead, make seconds and lead again.
- Pass the treble in 2-3, dodge 3-4 up, 4-5 up, lie in long fifths (four blows) before dodging 4-5 down, 3.4 down and hunting to lead.
