

Call Changes – Dominoes

Preparation

- Photocopy the sheets or print the file.
- Laminate if possible for durability.
- Cut into domino cards along the thick black lines.

Using the domino cards

- Make sure that the cards have been well shuffled.
- Place them all out on the floor, or table, face up.

The cards are going to be used as a simple matching activity with START being the first card. They match the statement on the right side of the domino with the correct answer on the left side of the next domino.

The activity can be carried out by individuals. However, more learning takes place if ringers carry out the activity in pairs or in groups of three, as the ringers will discuss the options and explain the terms to each other.

It can be particularly helpful if a more experienced ringer is placed with a couple of learners, to help guide the discussion, and to clarify terminology. They should avoid giving the answers.
